

PROVENCIAL BLEND

CBP-OLI-PB

TEXTURE, TYPE & COLOUR

Handmade facing bricks for interior and exterior use in decorative or construction walls.

Provencial Blend; This clay facing brick has the Rustic charm and informal style typical of bricks produced at the Olivier Bricks factory. On balance, this is a yellow brick! Look closer, and you'll notice there is delicate pink undertone with the occasional red and tan brick adding to the balance. White touches help blend the colour variations — a creative mix with intentionally less vibrant colours than some other yellows & reds.

TECHNICAL CHARACTERISTICS

The facing bricks are delivered with the following characteristics, in accordance with the CE and Benor marks:

NEN-EN 771-1, April 2013, and NEN-EN 771-1/A1, March 2005 Category I, HD clay bricks.

NOTE

Dimensions may vary depending on the production. For the most recent version see www.camtechbp.co.uk. This document is not binding and annuls all previous publications. The manufacturer reserves the right to change the product range and characteristics. The user must always check that they have the most recent descriptive text.

FACTORY: OLIVIER BRICKS

NEN-EN 771-1, April 2013, and NEN-EN 771-1/A1, March 2005 Category I, HD clay bricks
Production Reference code: Olivier 00120CAM

Length	: 215 mm, T1 (+/- 6 mm), R1 (9 mm)
Width	: 102 mm, T1 (+/- 4 mm), R1 (6 mm)
Thickness	: 65mm, T1 (+/- 3 mm), R1 (5 mm)
Appearance	: Soft Mud Tumbled, Euro group 1
Average compressive strength	: >15 N/mm ²
Dimensional stability	: NPD
Bond strength	: 0.15 - 0.30 N/mm ²
Active soluble salts	: S2
Reaction to fire	: Euro class A1
Water absorption	: <24% m/md
Initial rate of water absorption	: IW4 strong suction, >4.0 kg/m ² .min
Water vapour diffusion coefficient	: 5/10
Gross dry density	: 1450 kg/m ³ , D1 (10%, +/- 145 kg/m ³)
Thermal conductivity	: 0,41 W/mK
Freeze/thaw resistance	: F2
